SHOW Ground Zero 2020 TIME Group 61

EXECUTIVE SUMMARY

ShowTime is a web application that has been developed to streamline workflow

Our target market is project based small and medium sized firms

We provide value to our clients by helping them identify bottlenecks in their operations and providing them a platform to easily reallocate tasks to alleviate these bottlenecks

Our product is subscription based and we use a penetration pricing model to capture as large a market share as possible

The subscription fee is based on the number of users per client and we charge \$\$50 for up to 50 users and \$\$100 for 50 - 200 users

By utilising cloud servers, we are able to expand quickly both locally and globally.

EXECUTIVE SUMMARY

Ekam's struggles are emblematic of the issues that many SMEs in Singapore face

Background

- Personal Name: Ekam Singh
- Industry: Events Management
- Role: Chief Executive Officer
- Staff Base: 10 employees
- Business Type: Small Enterprise

My Responsibilities

- Delegates tasks to employees
- Manages their performance and evaluation
- Oversees the business process to ensure work is done on

My Motivations

- Has plans to grow the business in the future
- Wishes to provide excellent service to customers

My Frustrations

- Finds it difficult to keep track of the work employees have done
- Notices that work often comes to a halt at one person. Some employees appear very busy while others are not
- By having to concern himself with managing employees, he finds he has less time to time to grow the business

Ekam's main issue is staff management, he believes there must be a system available that could optimise this so he can focus on leading the company.

Showtime addresses common management issues that companies face

Breakdown of Ekam's management issue

"Some employees appear very busy while others are not"

Reason 1: Bottlenecks

Reason 2: Social Loafing

"These are points of congestion that occurs when workload arrive to quickly for a point in the process to handle." - *Investopedia, 2019*

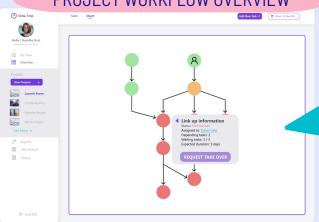

"The tendency of certain members of a group of a group to get by with less effort than what they have put when working alone." - Business Dictionary

There is an opportunity for companies to improve productive capabilities through optimizing their workflow process to reduce bottlenecks and social loafing.

Our product, Showtime aims to provide value by solving Bottlenecks and Social Loafing in the workplace

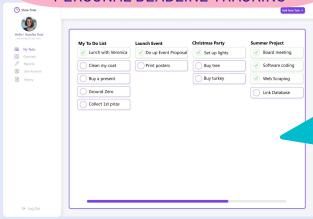

PROJECT WORKFLOW OVERVIEW

Graphical Display helps to identify bottlenecks.

Ability to see dependent tasks as well as requirements to complete task.

PERSONAL DEADLINE TRACKING

To-do list provides a quick way to monitor pending tasks and keep track of deadlines.

Management can also view progress. FLEXIBLE TASK ASSIGNMENT

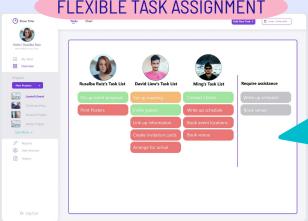

Chart-like tasks screen gives comprehensive list of everyone's tasks.

Facilitates requests to reassign tasks.

PRODUCTIVITY REPORTS

End of month productivity reports help management identify places for improvement.

PRODUCT LAUNCH & DEMO

Showtime brings value by improving productivity and streamlining workflow process

through its functionalities

FLEXIBLE TASK ASSIGNMENT

Employees are able to request for help with tasks when they are too busy, freeing them up to finish important tasks

Allows workers with free capacity to take up more tasks, thereby increasing productivity

WORKFLOW OVERVIEW

Employees are able to see which tasks others are relying on to get done.

This enables them to prioritize their work more effectively

CLOUD COMPUTING

Cloud server allow for effective memory storage that can be shared across users

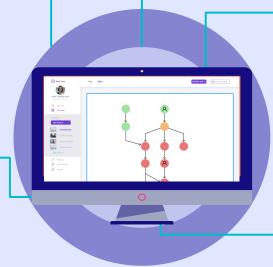

PRODUCTIVITY REPORT

Enables employers to more accurately assess employees

- This could lead to additional bonuses for productive workers
- Could help the boss identify where bottlenecks are, if more staff are needed and also areas where less staff are needed

DEADLINE TRACKING

Enables employees and bosses to more accurately keep track of deadlines

Showtime provides additional value that is currently not present in the market

PRODUCT LAUNCH & DEMO

Showtime's target market is SMEs that engage in project based work

TYPE OF FIRM Micro Enterprise	NUMBER OF FIRMS 160,000	AVERAGE EMPLOYEES 3-5	REASONS Not viable because employees are too few. Showtime would not provide as much value to these enterprises.	FURTHER SEGMENTATION OF SME'S
Small Enterprise Medium Enterprise	30,000 8,000	30 105	 There are a substantial number of firms It is a lucrative market that contributes to 30% of GDP in Singapore Employee size which is the optimal size to implement the platform quickly and maximise adoption 	Our product is most appealing to firms that deal with project based work. This amounts to 43.1% of the previously segmented firms. This is a total of 16,387 firms
Large Enterprise	2,000	450	Too costly to implement in the short term because the number because of the complexity and size of the organisation.	Firms that deal with repetitive and routine work may find implementing this less productive

MARKET ANALYSIS

BUSINESS MODEL

PRODUCT LAUNCH

External Market factors and Government intervention indicates a growing market for productivity services

MARKET FACTORS SMEs are often slow to adopt emerging technologies.

"Local firms have been slow to adopt business model innovation (BMI), a critical tool during a time of rapid disruption" - Business Times Many SMEs are being pushed to digitize their operations. This represents growing demand for optimization products.

"Up to **70% funding support** for adopting IT solution and equipment." - MTI Productivity Solutions Grant.

The government has been aggressively promoting a digitization effort.

Especially amongst SMEs recently announcing grants such as the CDG and EDG grants that subsidize efforts to move towards digital solutions.

Regulatory factors appear to be speeding up the trend, as governmental support will help to boost demand.

"\$7 for every \$3 raised by entrepreneur for the **first \$250K**; \$1 for every \$1 raised thereafter." - Startup Sg Equity

EXECUTIVE SUMMARY

The optimization product industry is a growth market that we can capitalize on

OPPORTUNITY

Scalability in terms of user count and overseas expansion is achievable due to the cloud computing, global expansion and transition into other local markets

SINGAPORE

GROWING USER COUNT

Over time, as our customer base grows within singapore, we can very quickly expand servers to meet a growing demand.

TRANSITION INTO OTHER LOCAL MARKETS

As our clients businesses grow in size, we can begin to transition into the market of large enterprises and corporations.

GLOBAL

GLOBAL EXPANSION

While we have identified singaporean SMEs as the initial targeted market, overseas markets are a very feasible expansion.

COSTS

As we are implementing our services on the cloud, overseas markets such as those in SEA can be expanded to without the necessity of large investments.

Pricing strategy and monetization

Our business type

We are a B2B company.
Customers: Businesses who
wish to improve
productivity

Consumers: The employees of the company users

Our monetization strategy

Pricing strategy: Showtime will adopt a penetration pricing strategy to capture as large a market share as possible. The plan is subscription based with monthly charges

VS

S\$50 for 50 users

USD\$319 for 40 users

Plan type	Number of employees	Price (per month)
Regular	Less than 50	S\$50
Upsized	Between 50 and 200	S\$100
